**Pew Research Center  
Summer 2020 Global Attitudes Survey  
August 27, 2020 Release**

Methodological notes:

- Survey results are based on national samples. For further details on sample designs, see Methodology section and our [international survey methods database](#).
- The following table shows the unweighted sample sizes and the error attributable to sampling that would be expected at the 95% level of confidence for different groups in the United States in the survey:

<b>Group</b>	<b>Unweighted sample size</b>	<b>Weighted %</b>	<b>Plus or minus ...</b>
Total sample	1003		3.7 percentage points
Rep/Lean Rep	402	38	5.8 percentage points
Dem/Lean Dem	497	49	5.2 percentage points

- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Not all questions included in the Summer 2020 Global Attitudes Survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
