

Topline questionnaire

Pew Research Center
Spring 2022 Global Attitudes Survey
May 15, 2023 Release

Methodological notes:

- Survey results are based on national samples. For further details on sample designs, see Methodology section and our [international survey methods database](#).
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Surveys in the U.S. and Australia were conducted online. The U.S. survey was conducted on Pew Research Center’s American Trends Panel. The Australia survey was conducted on the Social Research Centre’s Life in Australia Panel. In both countries, many questions have been asked in previous surveys on the phone. U.S. phone trends for comparison are provided in separate tables throughout the topline. The extent of the mode differences varies across questions; while there are negligible differences on some questions, others have more pronounced differences. Caution should be taken when evaluating online and phone estimates.
- Not all questions included in the Spring 2022 Global Attitudes Survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
